Information Memorandum

To: All Head Start grant recipients

Subject: Strategies and Recommendations for Supporting Mental Health

Information:

PURPOSE:

This Information Memorandum (IM) highlights the Head Start Program Performance Standards and related strategies for integrating mental health supports across all Head Start programs.

BACKGROUND:

Head Start programs, including preschool programs, Early Head Start programs, Migrant and Seasonal programs, and American Indian and Alaska Native programs, have a long history of providing comprehensive services alongside early education services. They support a program-wide culture that promotes children's mental health and social and emotional well-being. Children's mental health is

foundational for family well-being, children's overall healthy development, and long-term success.¹ In recent years, Head Start programs have called for guidance on how to be more intentional in integrating [mental health supports](#) into programs. These calls stem from a reported rise in behavioral and developmental concerns, higher rates of staff turnover, and limited availability of specialized mental health services. This IM provides evidence-informed mental health strategies and associated resources that can help address these challenges as part of a renewed effort across federal early childhood funding agencies to integrate mental health supports into programs.

To integrate mental health supports effectively into Head Start programs, it is important to first understand and destigmatize what is meant by "mental health." Young children's mental health, often referred to as early childhood mental health (ECMH), is not mental illness. Rather, it is the same as [social and emotional development](#) and well-being. It is a child's capacity to express and regulate emotions, form trusting relationships, explore, and learn — all in the cultural context of family and community. ECMH approaches should support every child's development of social and emotional skills, in addition to providing specialized supports for the up to 20% of children under the age of 5 who experience social and emotional difficulties.¹

Strengthening the focus on mental health is particularly appropriate given the Head Start program's mission to serve the most vulnerable children and families and break the cycle of poverty. Individuals living in high-poverty neighborhoods often have less access to high-quality resources and supports compared to individuals living in low-poverty neighborhoods, and are more likely to have worse mental health outcomes as a result.² Furthermore, families and families in remote or rural areas have less access to mental health and substance use services.³

Head Start programs play a vital role in addressing ECMH because they focus on the whole child as well as partner with families and communities. Family-focused efforts in particular ensure children's mental health continues to be supported in the long-term, after children transition to kindergarten. Many Head Start programs have already adopted [different strategies](#) to address ECMH. Programs support family well-being and staff-wellness, which ensures caregivers are well equipped to support ECMH. They directly support the child by strengthening relationships with responsive caregivers, such as [parents](#) and [early childhood staff](#), which is the foundation of ECMH. They provide stable, nurturing environments in which children can safely learn and practice social and emotional skills, and partner with families to do the same at home. Head Start staff build trusting relationships with families and partner within the community to identify and leverage resources. These steps make it more likely that mental health supports will meet the needs of families and make a difference.

GUIDANCE:

Although there are many ways mental health can be supported in Head Start programs, it is important for programs to develop a comprehensive, integrated early childhood mental health approach that promotes child and adult mental health, prevents concerns from developing, and supports early identification and referrals for treatment when needed. Using a continuum⁴ of mental health supports ensures every child and family receives the appropriate level of care. This continuum includes:

1. **Mental health promotion** – An approach aimed at strengthening positive aspects of mental health and well-being and is focused on setting children and families up for success.
2. **Prevention services and supports** – An approach aimed at reducing the likelihood of future disorders in the general population or for people who are identified as at risk of a disorder.
3. **Access to mental health treatment** – Interventions are delivered to people who continue to be at risk after engaging in prevention services or have been diagnosed with a mental disorder.

The Office of Head Start (OHS) continues to strongly encourage grant recipients to use quality improvement funds available to all Head Start, Early Head Start, American Indian and Alaska Native Head Start, Migrant and Seasonal Head Start, and Early Head Start-Child Care Partnership grant recipients to support these strategies and invest in mental health supports across roles and program service areas. Suggestions of allowable uses for quality improvement funds as specified in the Head Start Act can be found in the [FY 2023 Head Start Funding Increase Program Instruction](#).

Strategies and Recommendations to Support Mental Health

These strategies support program quality and describe resources that can help programs comply with applicable Head Start Program Performance Standards.

Increase Mental Health Promotion

1. A focus on social determinants of health, or the conditions in which individuals are born, grow, live, work, and age, can lead to better mental health outcomes and prevent future mental illness. To promote social conditions that support family well-being, such as family safety, health, and economic stability, programs are encouraged to develop innovative two-generation approaches that leverage community partnerships and address prevalent needs of children and families ([45 CFR §1302.50\(a-b\)](#)). To achieve this, programs can:
 - Create authentic partnerships with families using the [Building Partnerships with Families Series](#) as a guide. Programs can support family mental health and well-being by using the family assessment and partnership process to help families with their biggest life stressors.
 - Update the program's intake process with families to include targeted discussions on mental health, such as the families' perceptions about mental health and addressing potential stigma. Include information on mental health supports in the program, such as [mental health consultation services](#) and resources and supports available in the community.
 - Establish formal and informal [check-ins with families](#) with the intent to support family mental health. For example, build in time during parent-teacher conferences to discuss how families are doing, create a drop-box for parents to discreetly communicate their needs to staff, and devote time in every parent meeting to wellness activities.
 - Invite the mental health consultant to introduce themselves at program events, such as an "Open House" to explain the Head Start program's commitment to supporting mental health. This is an opportunity to familiarize parents with the mental health services available to them, including the role of the mental health consultant and how consultation is used throughout the program.
2. To promote family well-being, programs must collaborate with parents by providing mental health education support services. These services include opportunities for parents to learn about healthy pregnancy and postpartum care that encompasses mental health and substance use treatment options ([45 CFR §1302.46\(a\)](#)). To achieve this, programs can:
 - Offer opportunities for families to connect to [talk about their child's development](#), how they are coping with potential stressors, and what resources they are using. Create a parent group, either virtually or in person, that serves as a space for parents to express their emotions, thoughts, and feelings. For guidance on facilitating this activity, refer to [Leading Online Parent Meetings and Groups](#).
 - Provide training and opportunities for parents to learn about children's health, well-being, and mental health (i.e., in person trainings, virtual trainings, resources/handouts, etc.), as well as developing safe, stable, and nurturing relationships and environments. For example:
 1. Use the mental health consultant to provide group wellness sessions with parents. In these sessions include information on resources in the community and how to access these resources.

2. Invite speakers from mental health and substance use agencies to give talks about mental health and substance use.
 - Regularly check in with families about providing supports for their own mental health and well-being, such as education materials on [reducing stress](#) and [understanding depression](#).
 - For pregnant women and expectant families enrolled in Early Head Start services, include a mental wellness check during the [newborn visit](#) that a program must provide to each mother and baby within two weeks after the infant's birth ([45 CFR §1302.80\(d\)](#)). These mental wellness checks are geared towards the parent or family members caring for the child and can be incorporated into a daily health check. Consider incorporating screenings for adult mental health, including [depression](#), and [substance use](#), with appropriate guidance from a mental health professional.
3. To promote staff well-being, programs must make mental health and wellness information available to staff regarding issues that may affect their job performance and must provide staff with regularly scheduled opportunities to learn about mental health, wellness, and health education ([45 CFR §1302.93\(b\)](#)). To achieve this, programs can:
 - Implement identified policies, procedures, and strategies to support staff wellness that are informed by program data, such as those described in [ACF-IM-HS-21-05 Supporting the Wellness of All Staff in the Head Start Workforce](#). It is important to gather feedback from staff on their [well-being](#) and job satisfaction, as well as wellness strategies, to determine if refinements or improvements are needed.
 - Provide program leaders with foundational training in supporting workforce mental health such as through the [National Child Traumatic Stress Network \(NTCSN\)](#). The NTCSN offers resources and trainings on a wide range of topics, including strategies to prevent, recognize and address secondary traumatic stress, which may be experienced by Head Start staff caring for children affected by trauma.
 - Consider establishing communities of practice or [reflective supervision](#) groups that help directors and managers focus on creating safe environments and communications that convey to staff that it is safe to disclose and receive support if and when they experience mental health challenges.
 - Promote employee assistance services and build a culture to address the stigma of seeking help for mental health reasons. Raise employee awareness around free or low-cost mental health supports available, such as benefits included in health insurance plans.
4. To promote child well-being, a program must ensure staff, consultants, contractors, and volunteers implement positive strategies to support children's well-being ([45 CFR §1302.90\(c\)\(i\)](#)). To facilitate implementation of positive strategies, programs can:
 - Train staff, consultants, contractors, and volunteers to have basic knowledge of developmentally appropriate strategies to support positive behaviors. Since developmental expectations and appropriate strategies may differ depending on a child's age and developmental skills, staff working with [preschool-age children](#), may still benefit from a basic understanding of how to support [infants and toddlers](#).
 - Ensure staff understand that [following children's lead](#) in structured play activities is an impactful way to understand children's developmental skills, identify and offer positive attention to their strengths, and practice self-regulation skills in a controlled environment.
 - Make sure learning environments are designed to support children's self-regulation. This could include creating "[cozy spaces](#)" that are clearly visible to adult supervision where children can go if they are feeling overwhelmed. Similarly, spaces can be created with activities or sensory materials as places to express energy. These types of spaces are designed so that teachers can still observe the child or children who are in them, while also providing them the needed supports to self-regulate.
 - [Partner with families to understand the development](#), communication style, strengths, and [temperament](#) of each child in order to establish predictable routines, transition strategies, and developmentally appropriate behavioral expectations for children in the program.

Increase Prevention Services and Supports

5. To support children's ongoing social and emotional development, programs must provide supports for effective classroom management and positive learning environments; supportive teacher practices; and strategies for supporting children with challenging behaviors and other social, emotional, and mental health concerns ([45 CFR §1302.45\(a\)](#)). To achieve this, programs can:
 - Implement an [all-hands-on deck](#) approach by creating a multidisciplinary team that works together in your program to support children's mental health. This team can be comprised of individuals that already work with the child or family across disciplines. The benefit of having a team of professionals with multiple perspectives (i.e., mental health, early childhood, special education, family service, health, nutrition, etc.) is that it ensures the most comprehensive approach to support the needs of a child and family.
 - For example, consider ways to integrate prevention-focused approaches such as the [Pyramid Model](#) with mental health supports such as mental health consultation.
 - Seek direct guidance from a mental health or child development professional to ensure that findings from developmental screening and assessment required in [45 CFR §1302.33](#), including social and emotional screenings, are used when making a referral to determine if the child is eligible for services through [IDEA](#) or [section 504 of the Rehabilitation Act](#). While programs wait for an eligibility evaluation and possible services, programs can consider an individualized approach to support positive behaviors and [teach new skills](#).
 - Review your program's educational curriculum to ensure it offers appropriate social and emotional learning opportunities, including intentionally planned learning experiences to help practice self-regulation skills. If you notice that many children in the group need social and emotional development support, spend some time intentionally embedding more of the experiences and activities from your curriculum that support these skills. Work these activities and supports into your daily routines and revisit them as needed to ensure children are developing skills in this area.
 - Implement a systems-level approach for adult regulation such as the "Tap-In/Tap-Out" system⁵ when an education staff member is feeling frustrated, overwhelmed, or otherwise dysregulated. This strategy allows for education staff to engage another staff member from a predetermined list to "tap-in" and cover the class. The education staff member can then "tap-out" and engage in strategies for accessing a calm state before returning to the learning environment.
6. Infant and early childhood mental health consultation (IECMHC) is a prevention-based approach. Mental health consultants work with Head Start leaders, staff, and families to support children's healthy social and emotional development. Grant recipients have shared that it can be challenging to obtain mental health consultants, particularly in rural areas. A few strategies for building mental health consultation access include:
 - Encourage existing staff to use educational benefits, such as tuition and fee support, to work towards mental health consultant qualifications. These and other strategies are described in [ACF-IM-HS-22-06 Strategies to Stabilize the Head Start Workforce](#).
 - Reach out to mental health organizations and other early childhood programs to identify potential partners for mental health consultation services. For example, ask other local Head Start or early childhood programs, home visiting programs, and state or tribal early care and education offices how they find mental health consultants. Ask local pediatricians, community health clinics, and hospitals where they refer children and adults for mental health services. After identifying possible partners, reach out to orient them to the role of mental health consultation in Head Start programs and explore potential collaborations.
 - Prioritize finding a mental health professional who is familiar with the families in your program or community. Your Head Start program can help them learn about child development, group care, the culture of your program, relevant HSPPS, and IECMHC.

- Consider implementing approaches such as telehealth or remote consultation, especially in rural areas, while efforts to build capacity for in-person mental health consultation are underway.⁶
 - Consult IECMHC.org's [interactive map of consultants](#).
7. To ensure mental health consultants engage in prevention-focused activities, programs must ensure the mental health consultant assists, at a minimum, with the requirements listed in 45 CFR §1302.45(b). To achieve this, programs can:
- Provide professional development opportunities for staff during onboarding and periodically after. For example, the [Foundations of Infant and Early Childhood Mental Health Consultation iPD Course](#) can ensure that all staff understand that IECMHC is a way to grow the capacity of adults to support the child's social and emotional well-being, rather than a direct intervention or treatment approach.
 - Use the expertise of the mental health consultant at a programmatic level, in addition to consulting at the level of specific children, families and classrooms. For example, the mental health consultant can help program leaders and staff explore strategies for enhancing systems that support staff well-being. They can also help design program-wide policies and procedures related to mental health supports, such as positive discipline or screening and assessment practices.

Access to Mental Health Services

8. Programs must build community partnerships to facilitate access to additional mental health services as needed (45 CFR §§1302.45(a)(4), [1302.53\(a\)\(2\)](#), 1302.80(c)). To achieve this, programs can:
- Consult with your Health and Mental Health Services Advisory Committee on local opportunities and potential partnerships. Identify grant funds available in your local community that are designated to support early childhood mental health. For example:
 1. Partner with local [Certified Community Behavioral Health Clinics \(CCBHCs\)](#). CCBHCs are designed to ensure access to coordinated comprehensive behavioral health care. CCBHCs are required to serve anyone who requests care for mental health or substance use, including developmentally appropriate care for children and youth, regardless of their ability to pay, place of residence, or age.
 2. Leverage community health workers, family navigators, [promotores](#), and peer specialists to reduce mental health stigma and provide support to families navigating mental health systems and other systems that address social determinants of health.
 - Build partnerships with local colleges and universities that may provide sliding scale mental health services through their mental health training clinics. A sliding scale is a flexible fee structure or payment system that asks a client to pay based on their ability to do so.
 - [Facilitate access to community](#) enrichment activities that can both protect and promote child and family mental health (i.e., sporting activities, cultural events, religious organizations, farmers' markets, and play groups).
 - Assess [barriers to obtaining mental health services](#) and provide supports based on this assessment to facilitate access. Examples could include providing transportation from the program to clinics or providing families with private spaces equipped with appropriate technology to access tele-mental health services.

These evidence-informed mental health strategies can support Head Start programs in intentionally integrating mental health supports across their program. They can address challenges programs face such as behavioral and developmental concerns, staff burnout, and the limited availability of specialized mental health services. The accompanying [appendix](#) includes more specific resources to support these recommendations.

OHS will continue to work with programs to support the mental health of children, families, and staff in Head Start programs. Please direct any questions about the content of this IM to your OHS regional office.

Thank you for all you do on behalf of children and families.

Sincerely,

/ Khari M. Garvin/

Program Instruction

To: All Head Start recipients, including Head Start programs, Early Head Start-Child Care Partnerships, Collaboration Offices, and National Centers

Subject: Fiscal Year 2024 (FY 2024) Head Start Funding Increase

Instruction:

President Biden signed the Further Consolidated Appropriations Act, 2024 (P.L. 118-47), into law on March 23, 2024. The funding level for programs under the Head Start Act (the Act) is \$12,271,820,000, an increase of \$275 million over FY 2023. This funding level provides all Head Start, Early Head Start, and Early Head Start-Child Care (EHS-CC) Partnership grant recipients a 2.35% cost-of-living adjustment (COLA).

Recipients subject to competition for continued funding through the Designation Renewal System (DRS) are entitled to COLA funds through the end of their current award. Head Start Collaboration Offices are not eligible for COLA funding due to the statutory cap on their funding in the Head Start Act.

FY 2024 COLA

Each eligible recipient will receive a COLA increase of 2.35% of the FY 2023 base funding level. Base funding excludes training and technical assistance funds and any one-time funding received during FY 2023.

Recipients must use COLA funds to permanently increase their Head Start pay scale, which includes the salaries of current staff and unfilled vacancies. Recipients may consider a permanent uniform percent increase to the pay scale or differential COLA increases to the pay scale across specific position types within the program. For example, a recipient may apply a larger increase to lower paid positions that are not currently receiving wages sufficient to cover costs of living, or to positions that are challenging to fill due to low wages. Recipients are encouraged to focus larger COLA increases on positions with the most staffing challenges and those which are blocking the program from fully serving children and families. Recipients are further encouraged to use findings from their wage comparability study to make every effort to offer wages competitive to similar positions in their communities, including teachers and other staff of local elementary schools. A recipient must maintain documentation that justifies applying differential adjustments to its pay scale and ensure the process is approved by its governing bodies.

Sections 653 and 640(j) of the Act provide further guidance on the uses and limitations of COLA funds. [Sec. 653](#) restricts compensation to an employee paid with Head Start funds that is higher than the average rate of compensation paid for substantially comparable services in the program's operating area. Any recipient concerned that it cannot increase salaries for staff due to wage comparability issues should ensure public school salaries for elementary school staff are included in its considerations. Sec. 653 also prohibits the use of Head Start funds of any employee compensated at a rate exceeding that of an Executive Schedule Level II position, including employees being paid through indirect costs. [Sec. 640\(j\)](#) of the Act requires that compensation of Head Start employees be improved regardless of whether the agency has the ability to improve the compensation of staff employed by the agency that do not provide Head Start services.

In addition, recipients must provide delegate agencies and other partners an equivalent increase of 2.35% to adjust their wage scales. A recipient must justify applying differential COLA increases between delegates or partners. COLA funds must be applied from the start of a recipient's FY 2024 budget period, which may require COLA to be retroactively applied. For example, for a recipient whose FY 2024 budget period began on November 1, 2023, the COLA must be applied from that date.

As specified in [45 CFR §1302.90](#), each recipient is required to establish written personnel policies and procedures that are approved by the governing body and Policy Council. They must be made available to all staff. Personnel policies and procedures should be reviewed as they may contain information relevant to this COLA.

Following the required permanent adjustment to Head Start pay scales, recipients may apply any remaining funds to fringe benefits costs or to offset increased operating costs in other areas of the budget. This includes increased costs in rent, utilities, facilities maintenance and insurance, contractual arrangements, vehicle fuel and maintenance, and supplies.

COLA Funding Notice of Awards

Each eligible recipient will receive a Notice of Award specifying its COLA increase and instructions for how the funding must be applied. Awards will also include instructions for recipients proposing to use funds for any other purposes than instructed.

Additional guidance on how COLA funds will be distributed will be forthcoming through the Head Start Enterprise System (HSES).

One-time Program Improvement Funding Requests

Recipients encountering program improvement needs that cannot be supported by the agency's budget or other resources are invited to apply for one-time funding. This funding must be applied for through the appropriate supplemental amendment type in HSES. Program improvement requests generally include, but are not limited to, facility projects (construction, purchase, or major renovations requiring 1303 applications or minor repairs and enhancements). Requests are prioritized and funded based on funding availability and may require additional time before a final decision is made.

Please direct any questions about this PI to your Regional Office.

Thank you for your work on behalf of children and families.

Head Start Annual Self-Assessment Report
Program Year 2024**

General Information on Self-Assessment

Requirements Head Start¹ grant recipients and their delegate agencies are required to conduct an annual self-assessment, as promulgated by regulation (45 CFR 1302.102(b)(2)(i)-(iii)). The purpose of the self-assessment process is to:

- Assess the Head Start program's progress toward meeting its long-term goals and short-term objectives.
- Assess the program's compliance with the Head Start Program Performance Standards (HSPPS).
- Assess the effectiveness of professional development and family engagement systems in promoting school readiness.

Purpose A self-assessment tests whether a Head Start agency is *"doing the right thing"* in its program design and delivery to meet the needs of children and families. It looks at an organization's processes and systems through a systemic lens. The County of San Bernardino's Preschool Services Department's (PSD) Program Year (PY) 2023-24 Annual Self-Assessment focused on its human resource system; specifically, its human resources recruitment strategies.

To determine the effectiveness of the recruitment strategies and alternative methods to draw individuals into the workforce, PSD's leadership team posed the following question:

Have the PSD's recruitment strategies and organizational changes increased the number of viable applicants to support PSD's needs for serving children?

Dates The Self-Assessment lasted six weeks, beginning in February 2024. Before the start, the management team was provided with an overview of the process and general expectations.

Team Composition The entire leadership and management team (Level 1 and Level 2) was included in the self-assessment process.

¹ The term Head Start is being used as the over-arching term to include Head Start Preschool, Early Head Start, and Child Care Partnerships.

Methodology

Area	Work Completed
SWOT Analysis	The key element of the self-assessment process was a SWOT analysis, which served to explore <i>What Could Be</i> vs. <i>What Is</i> . As such, the purpose of the SWOT was to identify the effectiveness of the current recruitment strategies and staffing changes; the challenges posed by the strategies, and the opportunities for the organization to implement new strategies. Through this process, PSD was able to identify its current reality and think broadly about its potential future strategic directions. The SWOT explored how the existing structure supported PSD's goals and objectives.
Meetings	Meetings were held with the Executive Director and Deputy Director to plan and highlight PSD's efforts over the past year. A subsequent meeting was held with key leadership, including human resources, to outline the strategies implemented and the challenges they experienced in implementing them.
Survey	The educational staff participated in a survey to provide input on their experiences with PSD's human resources process and to share strategies that they felt could effectively draw more individuals into the workforce. The survey included 12 questions and was sent to 196 educators; there was a 34% response rate, which according to survey methodology data, is considered a "good" response rate.
Document Review	PSD provided a list of past recruitment strategies. These strategies were reviewed and compared to strategies implemented by larger grantees with similar scope of responsibilities. The strategies were also researched to determine the type of audience drawn to the particular activity.

Head Start Management Systems

The Head Start Management Wheel was used as the guiding principle in the self-assessment process. The Head Start Management Wheel represents the twelve program management, planning, and oversight systems critical to sound program infrastructure and high-quality services. The twelve management systems include:

1. Program Planning & Service Systems Design
2. Data & Evaluation
3. Fiscal Management
4. Community & Self-Assessment
5. Facilities & Learning Environments
6. Transportation
7. Technology & Information Systems
8. Training & Professional Development
9. Communication
10. Record-Keeping & Reporting
11. Ongoing Monitoring & Continuous Improvement
12. Human Resources

The following systems were utilized for this self-assessment process.

Management System	Purpose of Management System
Human Resources	This system explores how the organizational structure supports staff in providing high-quality services to children and families. It also explores a program's ability to recruit, retain, and promote staff. For this self-assessment, PSD explored the efficiencies of its workforce recruitment and retention practices.
Program Planning	This system determines how programs are looking ahead to the program needs based on data trends and analysis and subsequently charting its direction and responses. For this self-assessment, planning was used to determine the frequency of recruitment events and application processing.
Communication	This system explores how the communication system addresses internal and external communication among and between program leadership and staff. For this self-assessment, PSD explored how the existing human resources process internally and externally communicates the vacant positions.
Ongoing Monitoring &	This system explores how ongoing monitoring informs program operations, planning, and continuous quality improvement.

Management System	Purpose of Management System
Continuous Improvement	For this self-assessment, PSD explored how the program monitored the implementation of strategies and modified them accordingly.

Overall Analyses of Data

- As of March 1, 2024, PSD is funded to serve 3,028 infants, toddlers, and preschoolers; the program is 58% enrolled. The grantee has 100 Teacher II (44%) vacancies and 63 Teacher Aide (52%) vacancies.
- The program is under-enrolled due to the number of teacher vacancies. There are 951 Head Start Preschool and 239 Early Head Start children waiting for a class to open.
- PSD held four hiring events from March 2023 to January 2024, expediting its hiring process by 4-6 weeks. 264 individuals were invited to the hiring events; 55% of the invited participants were scheduled to participate, 76% were interviewed, 75% were offered a position, and 71% were hired.
- In 2022, PSD increased staff salaries, which resulted in more candidates, particularly for the generalist positions (family services). A major change has been visible for the family services positions.
- The teacher aide position (which requires a Child Development Associate Teacher permit) is the lowest-paid position at \$18.39 per hour, with a vacancy rate of 52%.
- The vacancy rate for a teacher position is 44%, and the hourly wage is \$21.91. In July 2024, the teacher's hourly wage will increase by 2.5%, or \$22.45.
- PSD has created a recruitment video to support drawing more individuals and expediting them through hiring.
- PSD reviewed job descriptions for the most challenging positions and modified them to the most basic requirements in the Head Start Program Performance Standards and Title 5 regulations.
- PSD utilizes the OHS waiver process to support new staff in meeting the associate degree requirement.
- There is an apprenticeship program for the generalist position. The program also allows employees to participate in PSD pathways to other positions within the county. This model does not exist for teaching positions.

- PSD participated in ten community college and university job fairs from April 2023 to February 2024.
- There is a partnership with Chaffey and Valley colleges to support current and former (less than two years) parents in obtaining employment with PSD as teachers, custodians, clerks, food service workers, or generalists. Parents are enrolled in coursework and receive on-the-job training. This is not a registered apprenticeship program.
- A similar project is implemented with the SBC Transitional Assistance Department (CalWORKs). Over 18 months, participants are placed in classrooms as extra support as they complete their coursework. There are currently 10-15 active participants.
- PSD has implemented the Ladders of Success Initiative, which focuses on various pathways for parents and teacher aides to become lead teachers. This is a cohort model in which participants enroll in coursework while receiving training in the classroom.
- PSD has developed a partnership with nearby high schools to encourage high school seniors to join the workforce. While they have considered hiring high school interns, the state law mandates that criminal background checks are obtained before working with minors. Additionally, there is a liability concern when working with underage individuals.
- The web page markets job openings. Immediately upon opening the PSD website, a message states, "We Are Hiring – Join our Team." This information is accessible and easy to navigate to the vacancy announcements. While the PSD website is accessible, the San Bernardino County (parent agency) website is not easy to navigate if an individual is unaware. The PSD information is buried.

Survey Responses

- There were 66 responses to the Survey Monkey questionnaire; 51% were teachers, 19% identified as Lead Teachers and 21% as Assistant Teachers. 82% of respondents have been with PSD for three years or more.
- 56% of respondents felt that PSD was very well known in the community, while 41% felt that PSD was "somewhat" to "not" known. The 41% is significant for a program as large as PSD.
- Most respondents heard of PSD through referrals from family and friends or online searches such as the SB County website and Ed-Join. Only 7% of the referrals were from job fairs. Of particular interest is that only two respondents are former parents working in the program's education component.
- When asked to rank from highest to lowest, the top reason that drew respondents to seek employment with PSD, working with children ranked the highest at five. Interestingly,

employer, salary, benefits, and stability were ranked "4". Convincing recruitment was ranked "1", the very lowest on the scale.

- According to the feedback received, 77% of the respondents stated that PSD was somewhat quick to respond to their employment application. The majority of the respondents also mentioned that the recruitment application packet had the right amount of information or requests for information. Additionally, most respondents found the process easy to navigate once they started it.
- About half of the respondents felt that the website was easy to navigate, and the other half indicated that it was "somewhat" to "not easy." PSD could address this as an opportunity.
- Respondents provided the following suggestions for new strategies.
 - Emphasize the benefits of working with children, which will help them parent their children.
 - Emphasize the degree of professional development opportunities.
 - Emphasize the competitive benefits, particularly with Tier 1 and 2 retirement.
 - Increase pay to make it more competitive.
 - One respondent summed it up well: ***"The pay is decent, and working with families is not just about educating their children but also about making connections. Building relationships and helping families reach personal/professional/family goals. Seeing the growth and changes over the year with kids and families."***

Overall Findings

The self-assessment concluded that PSD is implementing effective strategies to attract and retain qualified staff. However, not enough viable candidates are entering the industry. Table 1 provides an overall summary of the SWOT analysis completed.

PSD will consider new strategies, such as updating San Bernardino County's website and contracting with vendors beyond Ed-Join. PSD will also focus on areas that threaten its ability to attract staff in a declining workforce, an issue most grant recipients face nationally.

In particular, the hourly wage of a teacher aide is not competitive compared to other non-educational fields. Prime examples include the food service industry, the lowest level of health care workers, and wholesale manufacturing. Since 2010, Amazon has spent more than \$19.3 billion in the Inland Empire and \$81 billion in California. The Seattle-based company

that revolutionized online shopping opened a new fulfillment center in Victorville, promising to bring over 1,000 full-time jobs to the region.² The average pay for entry-level associates in the United States at this company is \$20.98 per hour, 30% above the national average.³

Similarly, a full-time McDonald's food service worker can earn as much as \$35,152 per year without education. Fast-food workers in California are getting higher paychecks. From April 1, limited-service restaurant workers in the Golden State who work for chains with more than 60 locations nationwide will get a minimum wage of \$20 an hour under AB 1228, signed by Gov. Gavin Newsom in September.⁴ These positions do not have an educational requirement.

Another example of minimum salaries that will impact PSD is that of health care workers (medical technicians, nursing assistants, custodians, and other support staff). Organizations must implement a \$21 minimum wage in 2024 and reach \$25 by 2027.⁵

The proposed new Head Start Program Performance Standards will compound this, proposing a revision to 1302.90(e)(2)(i) "that requires programs to make progress towards pay parity for teachers with kindergarten through 3rd grade." The challenging question with this regulation is first, "Where will programs get the funding to support massive wage increases?" and "How will preschool teachers ultimately be defined?" Will the definition be based on the age of children served, or will it be based on industry titles?

The salary study is crucial for PSD. According to one manager working as a university professor, class participation has not declined significantly in the High Desert / Inland Empire. Many candidates are choosing Transitional Kindergarten (TK), which pays more than Head Start. PSD must modify its marketing approach to demonstrate that Head Start is preferable and pays comparable wages to TK. This threat is consistent across California. PSD could consider partnering with other large grant recipients facing the same challenge.

Another threat identified through this process was retaining staff. Many staff have expressed concerns regarding the increased number of children in the classroom who require special needs support. Staff feel overwhelmed by the increased number and need additional support to help address the children's needs. These supports include professional development opportunities and additional staff to reduce ratios.

According to the feedback from the staff members who participated in the Survey Monkey, PSD's services had some positive aspects and some challenges. The areas that need improvement include making the website easier to navigate, responding to applications more timely, and increasing the organization's visibility in the community. By doing so, PSD can establish a reputation for providing high-quality services to children and being a great place to work.

Table 1 Summary of SWOT

	INTERNAL	EXTERNAL
	STRENGTHS	OPPORTUNITIES
POSITIVE	✓ PSD held four hiring events from March 2023 to January 2024. 71% of applicants have been hired. ✓ PSD participated in job fairs from April 2023 to February 2024. ✓ Ladders of Success initiative - pathways to become a lead teacher. ✓ PSD has an accessible website and messaging stating, "We Are Hiring – Join our Team." ✓ Apprenticeship Models ✓ Colleges and Universities partner for coursework and on-the-job training. ✓ Parent focused partnerships	✓ Modify the SBC website to include a targeted area for preschool hiring under " SB County Newsroom." ✓ Decrease the number of slots to increase salaries. ✓ Consider contracting with web-based employment services such as LinkedIn or Indeed. ✓ Conduct a wage compensation study that includes the age group teachers serve versus the position title. ✓ Increase presence in the community – make sure PSD is well known throughout its service area. ✓ Recruit and support more parents in career pathways. ✓ Consider working to make the website easier to navigate.
	WEAKNESSES	THREATS
NEGATIVE	✓ The San Bernardino County (parent agency) website is difficult to navigate and the preschool information is inaccessible. ✓ Limited ability to recruit high school students. ✓ PSD only uses Ed-Join to do web-based recruitment. ✓ Teacher Aide salaries are not competitive with those of the food service and Amazon workforce, which have no education requirements, and health care workers, which have minimal education requirements. ✓ Marketing to demonstrate why Head Start is a great place to work. ✓ 41% of Survey Monkey respondents indicated that PSD was somewhat unknown to not known in the community. ✓ Less than 1% of respondents were former parents.	✓ Competitive salary for staff with no to low education requirements. ✓ Proposed new Head Start Regulations 1302.90(e)(2)(i). ✓ Amazon's strategic and aggressive expansion in California, particularly the Inland Empire. ✓ The number of qualified individuals in the early education industry. ✓ The increased number of children with special needs and staff feeling overwhelmed with their ability to meet the children's needs. ✓ ECE candidates choose Transitional Kindergarten over HS for employment.

Plan of Action

To address the weaknesses and potential threats identified as part of the SWOT analysis, PSD has begun instituting the following:

- Exploring renewed intern relations with CSU San Bernardino, working to resume the relationship in place pre-COVID-19 pandemic.
- Survey existing interns to determine what will encourage them to join the PSD family.
- Continue to work on re-establishing a relationship with the Transitional Assistance Department for job placement of CALWork recipients.
- Creating a calendar of recruitment strategies that place PSD in the community at least twice monthly.

Head Start Shared Governance Board Program Information Report Training

May 23, 2024

- PIR is designed to collect and make public program information of every Head Start recipient in the nation
- PIR has no identifiable information and can be accessed by the public upon request
- It is not intended to be used for compliance monitoring
- All recipients are required to collect all necessary information and submit to the Office of Head Start by August 31 of each program year

- PIR is not a tool to measure Continuous Quality Improvement
- PSD uses a diverse variety of metrics
- These are tied to program, child, and family goals and reported out at various times throughout the year, school readiness, County measures, etc
- PIR gives us a starting point for asking more in depth questions regarding program components, delivery systems, and efficacy

What is Parent, Family, and Community Engagement?

Page 2

Parent, Family, and Community Engagement involves all stakeholders invested in children's growth and well-being, participating in planning and delivering supportive services.

- ❖ **1302.50 (a) Purpose-** A program must integrate parent and family engagement strategies into all systems and program services to support family well-being and promote children's learning and development. Programs are encouraged to develop innovative two-generation approaches that address prevalent needs of families across their program that may leverage community partnerships or other funding sources.
- ❖ **1302.51 (a)** A program must promote shared responsibility with parents for children's early learning and development, and implement family engagement strategies that are designed to foster parental confidence and skills in promoting children's learning and development

The FSA helps the family identify needs and interests. The FPA is a tool to establish strategies, goals, and outcomes.

Partner with the parent/guardian to strive for:

Goals: A desired result the parent/guardian envisions, describes, and commits to by stating:

- Who will take action to achieve the result?
- A realistic accomplishment date for the family.

Strategies: A list of specific actions which:

- Are set by the family
- Are obtainable during the program year.
- Lead to a desired result.

Strategies may include support services for shelter, food, health, education, or other services.

OUTCOMES: The measurable effect that benefits the family is due to their vision, commitment, actions, and support received.

Offer parent the opportunity to gain valuable job-related skills and knowledge that makes them more marketable in their chosen profession.

7. Discussion Items

7.1 Approval of Fiscal Year 2023-24 Submission of 1303 Application – Victorville Amethyst

Madeline Tsang, Administrative Manager, presented the request to submit a 1303 application to acquire a facility located at 12883 Amethyst Road, Victorville (2,600 SF). PSD leased the Victor Valley College (VVC) Preschool site at 18422 Bear Valley Road, Victorville, CA from 2010 to 2022 when VVC District, informed PSD that they would discontinue the lease contract. To maintain the preschool services for enrolled children and families, PSD split the preschool children (ages 3-5) previously enrolled at the VVC site between the Victorville site (Amargosa site) and other high desert preschool sites. An additional preschool facility is needed to serve approximately 24 Early Head Start children (ages 0- 3).

PSD identified a suitable facility that is currently operating as a licensed preschool at 12883 Amethyst Road, Victorville with 2,600 square feet of space to serve the 24 Early Head Start children noted above. The existing owner wishes to sell her facility as soon as possible. The county Real Estate Department has evaluated the property and confirmed that this site meets the acquisition requirements for the preschool program. PSD believes the purchase of this site will fulfill the needs of the students served at the closed site (VVC). Staff from VVC will be assigned to this new site as needed, no new positions are needed to staff this site. The proposed acquisition cost is \$689,000, which exceeds the Office of Head Start \$250,000 threshold for minor purchases; therefore, PSD is required to submit a 1303 application as a major renovation project per 45 CFR 1303 Subpart E.

This property acquisition was approved by the Administration for Children and Families through a carryover funding request (up to \$500,000) on 11/23/2022 (grant award # 09CH11719-03-03). Due to the facility negotiations taking longer than expected, PSD resubmitted a carryover funding request on 12/21/2023 with an estimated cost up to \$700,000 to reflect the market increases. This 1303 application is to support the carryover funding request submitted on 12/21/2023.

This application has been approved by the Parent Policy Council on 3/18/2024.

7.2 Approval of 2024-25 Grant Application Submission to Administration for Children & Families

Jacquie Greene, PSD Director, presented the Head Start Basic Grant Application Summary and highlighted the following:

- Preschool Services Department's (PSD) Federal Basic Grant Refunding proposal for Program Year 2024-2025 to be submitted April 1, 2024, to the Administration for Children and Families (ACF). This basic grant proposal is for continuation of Head Start services to be provided by PSD, PSD's contract partners: Colton Joint Unified School District, Fontana Unified School District, Needles Unified School District, Child Care Resource Center (CCRC), as well as PSD's delegate agency Easter Seals Southern California, Inc. PSD, with our partners and delegate agency will serve 2,143 (not including 1,418 state slots) eligible children and families at 38 sites countywide, with an additional 27 Family Child Care locations.
- Proposed Budget for 2024-2025 Program Year

Type of Grant	Amount
Federal Head Start	\$52,086,668
Federal Early Head Start	\$12,447,174
Total Federal Grant	\$64,533,842
State	\$7,249,395

- Head Start \$52,086,668
- Early Head Start \$12,447.174
- **Total Federal Grant** **\$64,533,842**
- State \$ 7,249,395
- Short Term Goals:
 - Promote school readiness in language, literacy, social, and emotional development.
 - Increase the enrollment opportunities for foster children.
 - Enhance the referral process with partners to streamline enrollment of families.
 - Promote nutrition education programs for parents at each school site.
 - Identify the number of children with an unhealthy Body Mass Index (BMI) and help them move to the next lower level through family support and health education.
 - Increase the education level of families using the Online High School Diploma Program.
 - Enhance access to job opportunities for families.
- Long Term Goals:
 - Increase Center-Based Child Development services for children zero to five in the areas of highest need, as identified by the community assessment.
 - Increase the number of parents who are making progress to obtaining economic self-sufficiency.
 - Increase quality of classroom services as evidenced by increase of teacher level efficacy scores in all program options.
 - PSD will establish and maintain consistency of childcare partners by experiencing a
 - an 16% annually to increase continuity of care to children.
- Changes and Highlights for 2024-2025 program year
 - Head Start Reduction/Conversion – PSD had 2441 Head Start (HS) slots in the last program year. However, due to high demand and limited availability of Early Head Start (EHS) services, PSD is requesting to convert 96 existing HS part day slots to 24 EHS full day slots. In addition, Easter Seals is requesting to convert 46 slots of their Head Start Part Day slots into 32 EHS full day center- based slots. Beyond this, the agency has reduced 156 slots of Head Start Part Day to bring us in line with current agency capacity. The remaining total number of HS slots to 2,143.
 - Early Head Start Additions–PSD Head Start classes, 56 additional EHS Full day slots were added into the program for the 2024-2025 program year to address the growing need of all day care for children 18 months to 3 years old. EHS home based services are less in demand and were reduced by 21 slots. This reduction supports the increase in center-based slots. Overall, the EHS program increased by 35 full day slots resulting in a total of 689 EHS slots for the 2024-2025 program year.

Selection Criteria

Overview

Purpose The purpose of the selection criteria is to comply with funding requirements, for age and income eligible children for Head Start (HS), Early Head Start (EHS), and Early Head Start - Child Care Partnership (EHS-CCP) programs.

Reference The policies and regulations referenced are:

- Head Start Performance Standards: 1302.11- 1302.15, 1302.70,
- Head Start Act Section 645A,
- California Code of Regulations Title 17, Division 1, Chapter 4. Subchapter 8. Sections 6000-6075,
- California Department of Education:
 - Title 5, and
 - Attendance, Fiscal Reporting, and Reimbursement Procedures for Child Development Contracts (Greenbook) page 21.

Selection vs. Eligibility

Selection vs. eligibility

Eligibility is similar to selection because the same criteria is used, such as the child's age, homelessness status, disability status, or receiving public assistance.

The difference is what the regulations **decide**:

- **Eligibility** decision: Who is eligible to be on the waitlist?
 - **Selection** decision: Who is enrolled first?
-

Example: selection vs eligibility

For this example, we are *only using age regulations*.

Example: Two children apply for EHS-CCP:

- Fred is 12 months
- Ethel is 24 months

Eligibility: Only using age regulations for this example.

- Question: Are Fred and Ethel eligible to be on the waitlist?
- Answer: Yes, they are no younger than 6 weeks and no older than 3 years.

Selection: Only using age regulations for this example.

- Question: Who is placed higher on the wait list?
 - Answer: Fred is placed higher on the waitlist.
 - Fred, 12 mo. old: 125 points
 - Ethel, 24 mo. old: 100 points
-

The Waitlist & Eligibility Points

What is a waitlist?

A **Waitlist** is a report in ChildPlus (Report #2025) placing children in priority order for enrollment. A child at the top of the list is a priority for enrollment.

ChildPlus uses the family's situation from the application and the Community Assessment Report to identify criteria that gives the family eligibility points.

How eligibility points work

Eligibility Points are points based on selection criterion established by Federal and State regulations, and the Community Assessment. ChildPlus calculates eligibility points automatically.

Different situations receive higher or lower eligibility points; the highest total points prioritize the child as first on the waitlist.

Example: eligibility points

Eligibility points establish priority situations; for example, a homeless family receives a large amount of points to prioritize the child to the top of the list.

Example:

The two families below are applying for EHS. This example shows the possible totals of points based on each family's unique situation.

Family 1:EHS Application	Points	Family 2: EHS Application	Points
Child is 13 months	100	Child is 12 months	125
Single parent/guardian	25	Single parent/guardian	25
Parent in college FT	25	Parent did not finish high school	55
Child has an IEP	199	Child has a potential IEP/IFSP	25
Parent receives TANF	100	Parent receives TANF	100
		Parent speaks limited English	25
Total Points	449	Total Points	355

The Child in Family 1 is first on the waitlist with the highest total points of 449.

Continued on next page

The Waitlist & Eligibility Points, Continued

Is #1 on the waitlist always the first choice?

Is #1 on the waitlist always the next child enrolled? Yes and No.

Yes: The waitlist assigns vacant slots based on HS Performance Standards. The child at the top of the list is a priority.

Exceptions: The ERSEA Manager may have to make agency-level decisions based on the priority of the child and the capability and needs of the sites.

Selection Priority & Criteria

High priority:

The following children have high priority circumstances in the selection process, due to the higher likelihood that they need additional care and support.

- Homeless children
- Foster Care children
- Children at risk of abuse, neglect, or exploitation, or who are receiving child protective services.

HS Performance Standards 1302.14 (C) and the Community Assessment, support a 3% reservation of enrollment slots for homeless children.

HS/EHS/EHS-CCP

Children with disabilities

At least 10% of funded enrollment slots are given to children with disabilities. This target gives children with Individualized Education Programs (IEPs) and Individualized Family Service Plans (IFSPs) high enrollment priority.

Need

At this time, Head Start is wrapped with the Part Day State program. The Part Day State program and Head Start does not require families to verify the need for a full day program option. Families who request full day services that are Head Start and wrapped with Part Day state will be offered the program option that best serves their needs.

Selection for a full day program option at the beginning of the year will use selection criteria point values to determine placement. Once full day classes have been filled, Generalists will document part day families program preferences in ChildPlus by following the steps below:

Step	Action
1	Click: • Enrollment • Edit Enrollment History
2	Add Location Preference
3	Select: • Site, and • Classroom May select more than one site and classroom based on program options.
4	Click Enroll

Use the ChildPlus 2025 Enrollment Priority List to determine children eligible for full day placement. Select the following settings when running the report:

Status	Also include
Accepted/Enrolled	• Enrolled participants who have a location preference • Accepted participants who have a location preference
Waitlisted/Drop/Wait	Ineligible Applicants

Location preference

A location preference is a list of site and classrooms the parent wants to enroll their child if the first choice is unavailable. To create a location preference in ChildPlus follow the table below.

Step	Action
1	Click on Manage Location Preference in the Enrollment section.
2	Add Location Preference .
3	Select Site and Classroom based on program option (May select more than one site and classroom based on program options).
4	Click Save .

Once a location preference is added, use the ChildPlus 2025 Enrollment Priority Listing report to fill a vacant slot based on the family's location preference.

HS/EHS/EHS-CCP

Definition: Income Eligible

Income Eligible refers to families with income who:

- Have a gross income equal to or below the Federal poverty line, or
- Are eligible for CalWORKs, or SSI, or
- In the absence of child care, are potentially eligible for CalWORKs.

Income selection priority

Income selection priority is:

- Low income participants are enrolled first.
- Over income enrollment is limited to 10% of total funded enrollment.

Last Priority

Request ERSEA Manager approval before selecting a family with income in the range of 101-130% of the poverty level and if the 10% over income limit is exhausted. These families are last in priority.

35% of enrollment may consist of families with income in this range. Only after all selection priorities and needs of eligible participants are met, can a family in this range be considered for enrollment.

Re-enrollees & transitioning children priority

Children enrolled in the previous year in HS or EHS are a high priority because it is beneficial for children to maintain continuity of enrollment.

Other situations such as a homeless or Foster Care child, may take priority.

Children in transition classrooms may not remain in that classroom after the end of the program year. All transition classrooms must be empty at the end of the program year.

Age and licensing

The provider chooses a license covering certain age limits. Below is the HS age criteria; remember not all providers are licensed for all ages.

Selection Priority & Criteria, Continued

Age

Use the following table to establish eligibility by age.

Program	Age Eligibility Policy
EHS Center Based	An infant or toddler 0-36 months old • According to Head Start Regulation • Site license may limit ages to children only 18-36 months and no young
EHS HB	• Infants or toddlers 0-36 months old • Pregnant woman any age • Pregnant teens and teen single mothers are a priority
EHS-CCP	An infant or toddler: • 0-36 months old according to Head Start Regulation however a site license may limit the ages of the children • Not younger than 6 weeks • No older than 3 years. (See Transitioning for EHS children over 3 years)
HS	First priority: • Low-income 4 year olds are a priority • A child who turns 3 by September 1st. (eligibility date used by public schools.) Last priority: Younger 3 year olds A 3-year old, who turns three after September 1st, is a younger child. Younger 3 year olds are enrolled only if both criteria below are met: 1. A high quality, full day, publicly funded pre-kindergarten is in the area and 2. There are no other priority children on the waiting list.
Co-Mingled HS and State CSPP	HS co-mingled with California State Preschool Program (CSPP) age criteria is: • 3 or 4 years old on or before the cutoff date which is used to determine eligibility for public school in the local school district, and • Not 5 years old before the same cut-off date.

About Funding

What are Co-Mingled classes?

Co-Mingled classes are classes which have children who receive funding only from Head Start along with children who receive funding only from State CSPP in the same classroom.

Need and EHS- CCP

Applications with income for Dual Enrolled classes must meet Federal Guidelines in the Federal Register to be eligible for a State vacancy.

The parent/guardian has to meet requirements to enroll a child in EHS-CCP.

About subsidies

Receiving a subsidy is not required; however, due to funding limitations, only 30% of families may enroll in the program without a subsidy.

The parent/guardian:

1. Has a need,
2. Receives a subsidy, and
3. Does one of the following for 30+ hours a week:
 - 1) Employed,
 - 2) Student, or
 - 3) In an approved activity.

No more than
30% of families
are eligible
without a
subsidy

Transitioning and Re-enrollees

Transitioning children

A ***transitioning*** child is an enrolled child that is moving to a different program or provider, such as transitioning from EHS to HS. In order to keep transitioning children enrolled, complete the transition process timely starting at 30 months.

Although there are higher priorities, transitioning children are a priority because continuous care in Head Start prepares the child to be school ready

When to start transitioning

The transitioning process begins six months before the child turns three allowing time for the parent/guardian and child to prepare for the next school experience.

Transitioning to Head Start

Complete the following to enroll a child transitioning into the Head Start Program. Transitioning begins six months before the child turns three.

Step	Action						
1	• Check the child's age. • Start the transitioning process at 30 months allowing time to adequately transition the child and family to a new program or provider.						
2	Refer to the EHS Transition List for a child transitioning into Head Start. <table border="1"> <tr> <th>If the child is transitioning into HS and out of...</th><th>Then they are already enrolled, no on the waitlist, and...</th></tr> <tr> <td>EHS</td><td>First priority</td></tr> <tr> <td>EHS-CCP</td><td>Second priority</td></tr> </table>	If the child is transitioning into HS and out of...	Then they are already enrolled, no on the waitlist, and...	EHS	First priority	EHS-CCP	Second priority
If the child is transitioning into HS and out of...	Then they are already enrolled, no on the waitlist, and...						
EHS	First priority						
EHS-CCP	Second priority						
3	Review the Disability Certification List to ensure there is: • a completed HS application and, • supporting documentation to certify and enroll a child with an Individualized Education Program (IEP) or Individualized Family Service Plan (IFSP).						
4	Run the wait list report in ChildPlus for the enrolling site.						
5	Enroll the child with the highest priority ranking (eligibility points).

Over three in EHS

See Head Start Performance Standards 1302.70.

EHS children transition into Head Start or another program to maintain continuity of enrollment.

There are instances where a child may not be able to transition right away, i.e., a local program may not have a vacancy for the child.

When a transition is not completed within the six months after a child turns three, contact the ERSEA manager.

Re-enrollee

A Re-**enrollee** (formerly 'repeater') is a child enrolled in the last program year and expected to return the following year.

Re-enrollees are an enrollment priority. HS programs are most effective as continuous care education programs until the child is school ready.

In order to keep re-enrollees in the program, they are not on the waitlist and are rolled over for the next year.

Rollover

A **Rollover** data transfer is a program used to copy data from the prior year for the following program year, it is completed by the ChildPlus Help Desk.

POLICY COUNCIL BY-LAWS

ARTICLE I

NAME OF ORGANIZATION

The name of this organization shall be the COUNTY OF SAN BERNARDINO PRESCHOOL SERVICES DEPARTMENT POLICY COUNCIL (Policy Council).

ARTICLE II

PURPOSE

The purpose of the Policy Council shall be the encouragement and promotion of parent participation in the process of making policy decisions about the nature, operation and implementation of Head Start, Early Head Start and Early Head Start Child Care Partnership programs in San Bernardino County.

The Policy Council shall exercise all such powers, duties and functions as granted by the San Bernardino County Board of Supervisors providing that:

- A. Actions of the Policy Council shall not be contrary to, or in conflict with, Federal or State, or local ordinances. The guidelines, regulations or policies are established by the Federal Department of Health and Human Services (HHS), Administration for Children and Families. (45 Code of Federal Regulations (CFR) Part 1301) Head Start Act of 2007 Section 642(C)
- B. The Federal Regulations outline the functions of the Policy Council as follows:
 - 1. Must approve procedures for program planning.
 - 2. Must approve the program's philosophy and long and short-range program goals and objectives.
 - 3. Must approve the selection of Delegate Agencies, partners, and their service areas.
 - 4. Must approve criteria for defining recruitment, selection, and enrollment priorities in accordance with the requirements of 45 CFR sections 1301.2, 1301.3 and 1301.4.
 - 5. Must approve all funding applications and amendments to funding applications for Head Start, Early Head Start and Early Head Start Child Care Partnerships including administrative services, prior to the submission of such applications to Shared Governance, the County of San Bernardino, and HHS.

6. Must approve Policy Council budget.
7. Must approve Policy Council and Parent Committee Reimbursement for reasonable expenses incurred by the members.
8. Must approve the annual self-assessment of the grantee's progress in carrying out the programmatic and fiscal intent of its grant application, including planning or other actions that may result from the review of the annual audit and findings from the Federal monitoring review.
9. Must approve the composition of the Policy Council and the procedures by which policy group members are chosen.
10. Must approve procedures describing how the governing body and the appropriate policy group will implement shared decision making.
11. The Grantee and the Policy Council must jointly establish written procedures for resolving internal disputes, including impasse procedures, between Shared Governance and the policy group.
12. Must approve program policies and subsequent changes to those policies, in accordance with 45 CFR Part 1301, including standards of conduct for program staff, consultants, volunteers, and Policy Council members.
13. Must approve, with the County Board of Supervisors, and Shared Governance Board, the decision to hire or terminate the Head Start Director of the grantee agency.
14. Must approve program personnel policies and decisions regarding the employment of any person who works primarily for Head Start or Early Head Start at the grantee agency.

The Policy Council participates in the process by:

- a. Participating in the interview panel
15. The Parent Representative must report the actions taken by the Policy Council back to the Parent Committees at their individual sites.
16. The function of screening and interviewing prospective applicants may be designated to the Policy Council Personnel Committee.
17. Must serve on the Shared Governance Board. Representation shall consist of three (3) Policy Council members [Policy Council Chair and two (2) representatives].
18. Must approve position duties for Policy Council members, Policy Council alternates, Policy Council Executive Board, and Shared Governance Board Representatives.

ARTICLE III

POLICY COUNCIL MEMBERSHIP

A. Membership Composition

The membership of the Policy Council shall consist of:

- a. One representative selected from each Early Head Start site.
- b. One representative selected from each Head Start site.
- c. One representative selected from each Early Head Start Child Care Partnership region.
- d. One representative for each contract partner and Delegate Agency.
- e. Not more than five (5) representatives from the community (Community Representatives), including businesses and others who are familiar with resources and services for low-income children and families, as well as former Head Start and Early Head Start parents. (45 CFR section 1301.3 (a))

Parent representatives constitute majority of the members of the Policy Council membership. Parents from both home based and center based options are included in the parent meetings which elect the representatives. The elected representative must be an active member of the Parent Committee at the site he/she represents. Each site elects an alternate representative to serve on the Policy Council in the event that the Policy Council member cannot attend a meeting.

B. Community Representative

An announcement seeking applicants for the position of Community Representative must be distributed at least three months prior to the first scheduled meeting of the Policy Council in October. Interested candidates must submit an application to the Grantee agency before the close of the recruitment period designated in the announcement. Applications shall be presented to an Ad Hoc committee established by the Chairperson for consideration and nomination to the Executive Board. The Executive Board shall determine which applicants are selected to participate as Community Representatives on the Policy Council.

C. Term of Membership

The term of membership shall be for one (1) year from October to October of each year. The Policy Council must limit the number of one-year terms any individual may serve. Policy Council members may not be dissolved until successor Councils are elected and seated. Membership on the Policy Council is limited to no more than five (5) one-year terms.

D. Conflict of Interest

No member shall:

1. Have a conflict of interest with the Grantee or any Delegate Agency; or
2. Receive compensation for serving on the Policy Council, with the exception of allowable reimbursement, or for providing services on behalf of the Grantee. This

does not include parents who occasionally substitute as staff for either the Grantee or Delegate Agency.

E. Certification of Membership

The certification of membership establishes in writing the eligibility for membership. Appropriate documentation for membership includes:

1. The member's name, address, telephone number, and email address.
2. Minutes of the Parent Committee meeting at which the member was elected and a copy of the sign-in sheet of the committee members in attendance.

F. Orientation

Policy Council members and Policy Council Alternates must participate in an annual Policy Council Orientation Training Session. Make-up Policy Council Orientation will be held monthly prior to the monthly Policy Council meeting. Newly elected members must attend the make-up orientation prior to attending the monthly Policy Council meeting

G. Voting

Only members who have been certified and have attended orientation shall have voting rights. Each member shall be entitled to one (1) vote on each matter. An alternate, if he/she has attended orientation, may be seated as a voting member in the absence of the elected member if so designated by the Chairperson before the start of the meeting.

H. Attendance

Policy Council members are expected to attend all regular Policy Council meetings. Any member who fails to participate and regularly attend Policy Council meetings in accordance with these Bylaws will be subject to removal.

I. Absences

1. Policy Council members with three (3) absences from the regularly scheduled Policy Council meetings will be removed from the Policy Council. Exception: The three (3) absences should not include conducting other PC business such as attending conferences, etc. Absences may be considered excused for illness or family or personal emergency.
2. Policy Council Board members with three absences from the Executive Planning and/or other Executive meetings, may be removed from the Executive Board but may remain a member of the Policy Council. The three (3) absences from the Executive Planning and/or Executive meetings should not include conducting other PC business such as attending conferences, etc.
3. A written notice will be sent to the member, by the PSD Secretary, after the second absence, advising the member that a third absence will result in automatic removal from the Policy Council. The Policy Council Secretary must be notified of the

removal.

4. If the alternate representing the site attends the meeting, in the absence of the representative, it will not be considered an absence.
5. For attendance to be tracked, Policy Council members must sign-in on the Policy Council Sign-in sheet. If members have not signed in, they are counted as absent.

Policy Council members must contact the PSD Policy Council Coordinator or the PSD Receptionist to report the absence prior to the start time of the Policy Council meeting.

J. Resignation

If any member of the Policy Council wishes to resign, he/she may do so at any time. He/she must inform the Site Supervisor.

K. Vacancies

When a vacancy, resignation or termination occurs, the site for which the member served on behalf of shall conduct a Parent Committee meeting to select a new member for certification. The appropriate written documentation must be submitted to Preschool Services Department, and certification orientation and training will take place. *Vacancies that occur during the summer months shall be considered vacant in order to achieve a quorum.* The Policy Council member that vacates their position must return the Policy Council binder to the site.

Note: The previously elected alternate shall be given the first opportunity to become the new Policy Council Representative and the site must elect a new alternate.

L. Transfer of Membership

Membership in this Policy Council is not transferable.

M. Code of Conduct and Commitment

Policy Council members shall discharge faithfully their duties and demonstrate the highest standard of morality and ethics consistent with the requirements of their position. Refer to the Code of Conduct. All Policy Council members are required to comply with San Bernardino County policies and standard practices in fulfilling their role as members of the Policy Council.

PC members are required to notify recording secretary of any contact information changes as soon as they occur.

PC members may not be allowed to video record without prior authorization if the recording causes an unreasonable disruption of the proceedings.

A member may be terminated from Policy Council by a majority vote if the Code of Conduct is violated.

N. Disciplinary Action

Disciplinary action may be taken for Policy Council members who exhibit inappropriate

behavior such as but not limited to:

- 1 Personal misconduct when representing Policy Council.
- 2 Providing false information (oral or written).
- 3 Violation of confidentiality.
- 4 Slandorous or libelous remarks against Policy Council members or staff.
- 5 Correspondence sent on behalf of the Policy Council without Policy Council approval.
- 6 External reproduction of Policy Council and/or department documents without Policy Council prior approval
- 7 Violation of the Code of Conduct.

O. Termination

All members who do not attend the regularly scheduled monthly Policy Council meetings in accordance with the provisions ~~above~~below shall be subject to termination. Termination will result from a member's excessive absences or in accordance with the Policy Council's disciplinary action.

Any Executive Board officer elected or appointed by the Policy Council may be removed from the Board by a two-third (2/3) vote of all members whenever the behavior of the officer violates the Code of Conduct or whenever the best interest of the Policy Council has been compromised. The office shall be notified by certified mail of pending action. (Refer to Disciplinary Actions Regarding Policy Council member.)

ARTICLE IV

ELECTIONS FOR SPECIAL ACTIVITIES

Elections will be held for formal representation from the Policy Council to meetings or conferences which would benefit the Head Start, Early Head Start, Early Head Start Child Care Partnership or State Preschool programs such as National Head Start Association, National Head Start Annual Parent Training, California Head Start Association, etc.

The dates and numbers of positions will be announced in the regular meetings. Candidates receiving majority of the votes will be elected to attend. In case of a tie, a run-off election will be held. Unsuccessful candidates will be placed on a waiting list.

In case of time constraints during a Policy Council meeting or a large number of Policy Council members volunteer to be considered to attend a special activity, the representatives may be selected via a drawing.

In the event there is insufficient time to conduct an election for a special activity, the Policy Council Executive Board may be selected to attend a special event. The order used for this selection is:

- Policy Council Chairperson
- Policy Council Vice Chairperson
- Policy Council Secretary
- Policy Council Treasurer

Members elected must conduct Head Start, Early Head Start, or Early Head Start Child Care Partnership business according to the travel protocol procedure. (Refer to Travel Protocol Procedure.)

ARTICLE V

3. Note: In an emergency and in order to meet quorum, the PC chairperson may elect to contact absent members to attend the meeting via conference call. Called in members must state to Madam/Mr. Chair that they seek recognition, obtain the floor and/or submit motions. The Chairperson determines the presence of a quorum, takes, and verifies votes.

ARTICLE IX

**INTERNAL DISPUTE/RESOLUTION AND IMPASSE POLICY SAN BERNARDINO
COUNTY HEAD START AND EARLY HEAD START**

- A. **BACKGROUND:** Effective November 2016, the revised Head Start Program Performance Standards required that each grantee and delegate agency establish written procedures for resolving internal disputes, including impasse procedures, between the governing body and policy group. This policy establishes the foundation for complying with this mandate.
- B. **PURPOSE:** To resolve all differences between the Shared Governance Board as representatives of the San Bernardino County Board of Supervisors and the San Bernardino County Head Start and Early Head Start Policy Council through normal channels or the use of the formal procedures noted in this document. These differences are focused on, but not limited to, the Program Performance Standards regulations noted in 45 CFR section 1301.6.
- C. **GENERAL AGREEMENT:** Commitment to Resolve Issues in Good Faith.

This standing agreement assumes the commitment of the Shared Governance Board and the Head Start and Early Head Start Policy Council to make every good faith effort to resolve differences on an amicable basis. This step includes using all internal agency communications systems available to reach agreement and avoid impasse.

If necessary, this includes the Shared Governance Board and Head Start and Early Head Start Policy Council commitment to fully cooperate in all aspects of the established internal dispute and impasse process in order to resolve issues in the best interest of the children and families being served.

When the Shared Governance Board and the Head Start and Early Head Start Policy Council cannot jointly approve proposed actions, the dispute will formally be referred to the Dispute Resolution Committee.

D. PROCEDURES

STEP 1. ESTABLISHMENT OF THE DISPUTE RESOLUTION COMMITTEE

PURPOSE: The purpose of the Dispute Resolution Committee is to resolve disputes between the Head Start Shared Governance Board and the Head Start Policy Council within the scope of their shared decision-making powers.

MEMBERSHIP: The Dispute Resolution Committee (“Committee”) shall be made up of four (4) members comprised of the Chair and Vice-Chair from both the Head Start Shared Governance Board and the Head Start Policy Council.

STEP 2. FILING THE COMPLAINT

Within five (5) County business days of non-approval by either the Head Start Shared Governance Board and the Head Start Policy Council of any item within the scope of shared decision making, either the Head Start Shared Governance Board or the Head Start Policy Council may give written notice to the San Bernardino County Head Start Director (“Director”) requesting that the Committee be convened, and the dispute resolution process commenced. At the time written notice is provided, the Head Start Shared Governance Board or Head Start Policy Council requesting dispute resolution, shall provide the Director and the other party with a written statement of the issue at dispute and a recommendation for resolution.

STEP 3. NOTIFICATION OF COMPLAINT

The Director shall have five (5) County business days from the date the written notice was officially filed to notify the members of the Committee of the notice and to provide the written statement of issue.

STEP 4. DISPUTE RESOLUTION COMMITTEE MEETING

The Committee shall convene a meeting within five (5) County business days of receipt of the statement of issue. The Committee shall first determine whether the subject falls within the scope of shared decision making. If it does, then the Committee may request additional information from the Director, the Head Start Shared Governance Board or the Head Start Policy Council.

STEP 5. TIME LIMITATION

The Committee shall have ten (10) County business days from the first meeting convened to determine the validity of the issue(s) and provide a written solution to the Head Start Shared Governance Board, Head Start Policy Council, and the Director.

STEP 6. PROPOSED DISPUTE RESOLUTION RECOMMENDATION

The written solution must be presented to:

- (a) The Head Start Policy Council for acceptance or rejection; and
- (b) The Head Start Shared Governance Board for acceptance or rejection, and then submitted to the Board of Supervisors for final acceptance or rejection.

Both parties must inform the other in writing of their determination to either accept or reject the written solution.

STEP 7. FAILURE OF DISPUTE RESOLUTION COMMITTEE TO REACH CONSENSUS

If the Committee does not reach a consensus, the Committee so shall inform the Head Start Policy Council, the Head Start Shared Governance Board, and the Director.

STEP 8. FAILURE TO RESOLVE INTERNAL DISPUTE

If the Committee cannot reach a consensus, or if the written solution is rejected by either body, the dispute shall proceed to mediation.

- A. **MEDIATION:** This procedure requires the intervention into the dispute of an acceptable, impartial, and neutral third party who has no decision-making authority. The objective of this intervention is to assist both parties to voluntarily reach an acceptable resolution of the issue in dispute. The selected mediator will work with the Dispute Resolution Committee in order to make a final decision regarding the dispute issue(s).

Within fifteen (15) County business days from written notification that a consensus could not be reached, or rejection of the written solution, mediation shall be initiated by the Committee.

COMPOSITION: The mediation shall be conducted by the Head Start Director from a neighboring County.

TIME LIMITATIONS: The mediator shall work with the Committee to make a final decision. A written proposed resolution shall be provided within ten (10) County business days from the beginning of the mediation process.

The proposed resolution shall be presented to:

- (a) The Head Start Policy Council for acceptance or rejection; and
- (b) The Head Start Shared Governance Board for acceptance or rejection and then submitted to the Board of Supervisors for final acceptance or rejection.

Both parties must inform the other in writing of their determination to either accept or reject the written solution. If either body rejects the proposed resolution, the dispute shall proceed to arbitration for assurance of a binding decision in accordance with the Head Start Performance Standards.

- B. ARBITRATION:** Requires the presentation of the dispute to an impartial or neutral arbitrator for issuance of a binding decision.

Within fifteen (15) County business days from written notification that the proposed solution was rejected by either body, binding arbitration shall be initiated by the Committee. The Shared Governance Board and the Policy Council agree that they will be bound by the decision made through arbitration.

COMPOSITION: The Committee shall utilize the services of a professional arbitrator in accordance with the County's procurement policy.

TIME LIMITATIONS: The arbitration must take place within fifteen (15) days of initiation of the process unless a greater time is needed to secure an arbitrator or arbitration location. A written resolution must be provided by the arbitrator to the Committee. The Committee shall present the resolution to their respective bodies. The written resolution shall be presented by the Head Start Shared Governance Board to the Board of Supervisors for final notification.
